

Administrative Information Management System & You

AIMS will replace 82 non-integrated systems to support human resource, finance and supply management processes.

All Saskatchewan health system employees will benefit from improved system flexibility and reduced administrative tasks.

Electronic Time Cards

Eliminates the need to manually record work time and premiums.

Direct Access

Employees will have easy, 24/7 online access to pay statements, benefits reporting, and career postings.

Shift Notifications

AIMS provides flexible options where employees can choose to receive notifications by text, email or phone.

Online Expense Claims

Submit expense claims and monitor payment progress online.

Supplies

Convenient online ordering and the ability to track the progress of the order online.
